should
choose the
TMA?

TASHKENT
MEDICAL
ACADEMY

Leading medical university in the Republic of Uzbekistan
According to the National rating of universities www.reyting.tdi.uz

Dear friends and students!

As you know, today education and science are the basis of innovative development of the country. In modern conditions the role of higher education has immeasurably been increased. In an era of steadily accelerating processes of globalization, the improvement of the education system is very important.

Tashkent Medical Academy is the leading medical university of the Republic of Uzbekistan for the training of personnel in the field of medicine. Behind years of fruitful work, the academy has become one of the strongest medical schools, even in the international medical arena.

On behalf of the whole close-knit team of Tashkent Medical Academy I wish prosperity and success in your endeavors.
